ORGANIZATION

of the

CITY GOVERNMENT FOR THE YEAR 1941

The city government for 1941 was organized Wednesday evening, January 6, at a meeting held in the main hall of the Opera House and Mayor Henry J. Proulx delivered the following inaugural address:

MAYOR PROULX'S INAUGURAL

Reverend Father Hennon, Members of the City Council, Ladies and Gentlemen:

For the second time you have delegated to me your confidence, in permitting me to be here this evening as your chosen Mayor for 1941; for this renewed trust, I am deeply grateful, and in return pledge you my personal efforts for good government, my promise for 1940 which I believe now is a fulfillment.

May I express my appreciation for your testimonial tendered me in our recent City Election in which, although unopposed, became significant due to the sizeable vote I received; I am happy to acknowledge this tribute which I propose to continue to merit, and with your further assistance, by suggestion, constructive criticism, and moral support, urging, I will strive to encourage the tendencies of an administration uncompromising in its freedom of action, frank in its deliberations, and fearless in meeting its responsibilities.

As a City Government the year 1940 has come to a close, time has deemed it so, and as we look back, we are proud of the progress made, regret omissions committed, and apologize for the mistakes, . . . all of these factors which should affect and influence our policies and resolve for 1941.

I think you will agree with me that the 1940 Council might be called a "Wide Open Council," and very generally signifying freedom of action. The record of public attendance at these meetings, some of which were held in the main hall, bears out this statement and this manifestation of interest has been encouraging, and I hope will continue.

However, facing a year unlike any year in our history, the milestone of 1941 telescopes a hazy uncertain outlook, which is probably the psychological influence due to world events, which have an immediate effect on our nation and "our way of life" in this community. This calls for caution, in word, deed and action, this calls for a unity which alone can challenge the future, and which has done so well and has so often characterized this nation, in times of disturbances and trial. I am conscious that as a community we have had three elections this year, that have been intensely and bitterly contested. The impact of these elections has been severe and high, with the natural consequences of bitter reaction and unhealed scars, that cannot be overcome in a moment. As Americans we have had these experiences before and have always abided by the decision of the majority. I am confident that we will do it again, and that we will be united in a program, upholding all traditions that have made this nation glorious, allowing us to present a united front, which will play an important part in casting the die of the future of this nation, and the policies it shall embrace to meet any eventuality, any emergency and any sacrifice.

An increase in tax rate of \$2.80 over 1939 was as unpleasant an experience to the Administration as its realization was to the taxpayer, and I am doubtful if it was necessary or justified. Although a determination of "Pay as you go" was the attitude of the Council. I submit the following information in an attempt to clarify the analysis of my supposition.

1. The amount of cash in the Treasury at the close of 1940 was \$53,000.00, probably the largest balance in the City Treasury at the termination of any business year, in the history of this Government. (\$27,000.00 of which was left as a balance by my predecessor January 1, 1940).
2. The general and flagrant inequality of application of valuations for taxes.

Although previous to determine whether the balance of cash on hand is the result of the appraisals of the receipts of anticipated income, too uncertain to rely on for the application of a tax rate, or whether this has been a commission of purpose intended to promote a high tax rate, only the audit can prove. In the meantime, regardless of its true causes and the behavior of the evidence, this amount in our Treasury remains as a resource which should alleviate any possible immediate worry or concern.

I am satisfied that the factor responsible for the tax rate in 1940 was the reluctance and the determination of the Chairman of the Board of Assessors to disregard the appeal made by the Finance Committee to adjust the inequalities in valuation of property that were existing and that are now prevalent in the City of Franklin, N. H.

Responsibility in part can be assumed by the City Council to whom the Finance Committee reported and finally this responsibility can be shared and rested squarely on the shoulders of the highest Board of Appeals available in this State, The N. H. State Tax Commission, to whom I reported when interviewing its Secretary, Mr. John Marston, on no less than two occasions.

I in no way want to invoke any apology or use any subterfuge for the excuse of the tax rate, but I want to submit that I have performed my duty in using every means to alleviate it in face of facts that were impelling, and I challenge anyone to refute these allegations.

When it became imminent that our cost of meeting our budget and appropriation would involve a non-recurring Capital cost of \$16,000.00 (School equipment \$4,100.00, Bridge \$9,000.00 and a bond retiring amount of \$20,250.00) if we were to "Pay as you go," and obtain a reasonable tax rate, a hasty survey was necessary, and made by the Finance Committee. This had to be done to determine if all efforts had been exhausted to raise this amount. Specific instances of inequality were reviewed to sustain our findings, and in the presence of the Chairman of the Board of Assessors, we had the promise of an effort to rectify this situation. Although in no way surprised with the result and after a review of the same question with the City Council, I did feel that as a representative of the people, there was another avenue open for recourse. I did interview Mr. John Marston of the State Tax Commission twice, and he promised to cooperate as a service to our city, and believe it or not, the circulated rumored prediction, that I would get nowhere did come true. To this date I have not been extended the courtesy of even a letter from Mr. Marston, Secretary of the State Tax Commission, explaining his actions. He probably made his bow to the combine who were striving to defeat our aim and purpose; this combine reputed as the "Untouchables" but who, nevertheless, are screaming the loudest for a Tax Association—you know—"The one for all and all for one"—"The Three Musketeers." This is far from being a closed chapter and I am thankful that the General Court is in session.

In my quest for Good Government necessitating the elimination of these injustices of inequality in the valuation of property, I am interested only in trying the application of the principle of fairness that as dependents on one another we may share our levies in just and proportionate part that all may enjoy the maximum of return for the minimum of sacrifice.

I believe that a \$3.00 tax rate is possible if application to equality is fervent and persistent.

According to our City Report of 1915 stock in trade was recorded \$631,896.00 and in 1940 the current year, stock in trade from all sources was \$671,517.00—\$40,000.00 more than in 1915. Judge the reasonableness of this possibility if you can.

Let me make my position clear, I have no grief for any taxpayer neither is it my intention to suggest that there should be exception, all I would ask is that individually we meet our just responsibility, this is our city and it becomes our obligation. Other cities have met their problems in this respect, they have a fair valuation and a reasonable tax rate. We also can do this but it can never be accomplished by dropping valuation when the cost of operating is steadily increasing.

I appeal to the City Council to appoint assessors, who will be willing to give their untiring efforts, in the equalization of valuation in this city, a service that will be appreciated and gain the approval of everyone.

In return I know that we can rely on the Trustees, namely the City Council, to do their share by submitting to the next Council in February their Budget for 1941, and to exercise every precaution to whittle these budgets if necessary, providing it does not conflict with the efficiency and sound principles of operating these departments.

Finances

The continuation of borrowing money in anticipation of taxes at the rates so favorably obtained, is a sound practice of financing and should be continued.

We have, however, on our books an account that I would like to remove, which annually requires an appropriation to meet the interest, and which is paid to the trustees of the Cemetery Association. The customary manner in which this fund has been handled when received was not inaugurated by the present City Clerk, but dates back a number of years, and is now about \$37,000.00. Briefly when trusts were sent to the City of Franklin for maintenance of Cemetery Lots, the amount received was placed in the general fund instead of

given over directly to the Trustees of the Cemetery Association. A note for these amounts, depending on the denomination received, was given to the trustees and yearly interest has been paid on these notes. I do not think this is sound municipal financing, the responsibility of placing this money to earn interest should be left to the trustees, and when received should be turned over to them. We are not always fortunate in having a balance such as this year's business shows, and before this becomes a temptation, I would recommend that we pay to the Trustees of the Trust Fund of the Cemetery Association \$37,000.00, and obtain our receipts so that annually an appropriation of \$1,300.00 will not have to be raised to meet this interest out of taxpayers' money.

W. P. A.

Unless Franklin can show need for a defense project we may be forced to relinquish the use of these men in work in our immediate vicinity. By information received, certified military projects are given the priority over all other activity. However, we are happy to announce that if not available to terminate projects now awarded this city, our men will be requisitioned by the City of Laconia which has a grant, certified by the U. S. Army, for an airport. In the meantime, according to the disposition of requirements that do come under the classification of Certified Army Projects, or National Defense work, we will have to await the decision of the 77th Congress.

Relief

The Relief Department, under a new administration of three Commissioners and a Director, I believe has lived up to expectations by evidence of balance on hand, as well as the per cost, per case, per family. The reduction of the cost per family now is parallel in city and county, an improvement of nearly 50 per cent in cost. This is an encouraging sign and although we have no control over volume which becomes increased at the sign of unemployment, gradually unemployment is disappearing. Observation shows that administration of relief in volume runs parallel with unemployment compensation application, this has been verified by record. May I suggest that greater effort be devoted to rehabilitation, and that Commissioners offer a closer cooperation in this needy, and required work. Relief remains our responsibility, and I hope that when qualifying applicants make their appeal the response will be immediate and courteous.

We are seriously involved in a National Defense Program. Methods of war have revolutionized means of defense which now extend over the entire nation. Heretofore battle and action has been confined to a front, but aerial activity and the disintegration of the morale commonly known as "Fifth Column Activity" has defeated nations, brought hardship and privation to non-combatants and left confusion in the wake. These are realities and as such let us face them, let us organize a defense group in keeping with the National organization and co-ordinate the efforts of the Police, Fire Department with the Red Cross, Medical Profession and Representatives of Labor and Industry, to meet this.

In keeping with this program may I suggest to the Police Department that they be empowered under the direction of the Police Committee to establish a reserve of Special Officers, who will qualify in respect to age, size, and physical fitness. With the national guard in the State of New Hampshire now in active training, this department will have to meet any emergencies and contingencies. A school of training could be inaugurated to train these men in police work and use of firearms. Today the Police Department remains the first line of defense for any community.

In this connection the Fire Department avails us of rescue squads and men qualified in the training of first aid, and classes in first aid would be invaluable to this community in a program to encourage preparedness. I am confident that this department will loan its assistance in any way it can be helpful.

In conclusion, may I thank the Department Heads and their employees who so willingly gave their effort and their cooperation in 1940. The year's business shows the same efficiency that marks earnest effort and I urge you to continue in your public service.

To the members of the Council and to all those who have contributed in making the year 1940 one of progress, I thank you sincerely. I wish you a Happy New Year.

(Signed) HENRY J. PROULX,

Mayor, City of Franklin.

January 6, 1941.

CITY GOVERNMENT

CITY COUNCIL

Mayor

Elected annually on the fourth Tuesday of November. Salary \$180.00 a year.

Henry J. Proulx

Councilmen

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

Term expires.

AUDITORS' REPORT

February 26, 1942.

To the Honorable Mayor and City Council,
Franklin, New Hampshire.
Gentlemen:

We have followed your instructions and have audited the accounts and records of the City of Franklin for the year ended December 15, 1941. In making this audit we have followed the accepted procedure, and have verified in detail all Assets and Liabilities of the various departments and separate funds. We have checked the records of receipts and disbursements of each agency, to an extent, that we are satisfied, that subject to the comments and qualifications hereinafter made, that all receipts have been accounted for and all disbursements have been approved and are supported by proper vouchers.

It is our belief that an audit in order to be of the most value, should, in addition to providing a check on the Assets and Liabilities and Receipts and Disbursements, bring out certain practices and procedures which might be changed to the benefit of the City and its future management. It is with this belief in view that we call your attention to some matters, and make our recommendations as to how they may be improved.

The City of Franklin has during the year made quite a satisfactory showing. The net indebtedness has been reduced \$26,861.30 to a balance of \$248,364.65. The expenditures as a total have been kept under the appropriations so that a net surplus for the year of \$2,637.63 is shown. However, it is at this point we wish to bring to your attention that although the final result was a surplus, many departments exceeded their appropriations. In the past this has been taken care of by a transfer of unexpended appropriations in other departments to make up the deficits. We believe that when appropriations are made and a budget set up that this is for the purpose of controlling and limiting the expenditures in that department. We think each department should stand or fall by itself and at the close of the year the final report should show clearly whether or not it has lived within its means. It may be that appropriations have not been made carefully enough in the first instance, and if so this could be corrected. We have prepared an additional Exhibit V in our report this year which has eliminated all transfers of

appropriations and we believe that this warrants your study and consideration.

In making our audit we have encountered one situation which has made it more difficult, and in which a change would be conducive to better accounting and permit a more accurate financial picture at the close of the year. The suggestion that we make is that all departments and funds should close their books on the same date. We have found that many transfers and payments made after the close of a department are reflected in its report for the year, and these have occurred even as long after the close as February, 1942. It is quite obvious that this creates a difficult situation for your Treasurer and Auditors and should be corrected.

The Board of Education has again used up its appropriation and reported a balanced budget, but our audit shows unpaid bills in the amount of \$4,390.77. The appropriation for the year was increased, apparently to take care of the unpaid bills of the previous year and the total has been expended with the above balance remaining unpaid. The above is, of course, a charge to 1941 expense and should not be thrown as a burden on the 1942 appropriation. Our previous comments about living within appropriations would apply in this case particularly. We also find the bills of the Board of Education have been paid without being approved. This double check on expenditures is valuable and we believe should be continued.

The account of the Overseer of the Poor warrants considerable attention. Under the system employed it is impossible to determine accurately the amount of outstanding bills at the close of the year. We estimate they would be at least \$1,800.00 this year. A system of records should certainly be kept which would show the outstanding bills at the end of the year and for what they were issued. So many of these orders are held out for so long that possibly a time limit should be placed on their payment to prevent this.

It has been the practice in many Departments to meet their payrolls in cash. The payroll for each period is turned over to the head of the department as a lump sum and is then disbursed in cash. This arrangement opens the way to many abuses. We would suggest that each employee be paid by check.

In your report for 1940 comment was made that all notes due the Trustees of Trust Funds had been paid in full. This was incorrect as a balance of \$8,000.00 remains outstanding after the payment of \$37,638.00 as therein mentioned.

We have noticed that during the past years the Water Department revenue has not been too satisfactory; however, the present management has taken steps to remedy this condition, and the increase in revenue in this de-

partment is already apparent. This increase being brought about by the installation of several new meters in this system. They have also made changes in the handling of the accounts receivable, and while they were not in too good condition at the end of the year, they are being properly handled at the present time.

We recommend to the Trustees of Trust Funds that title of certain securities be re-examined and that the same be transferred from the general title of "City of Franklin, New Hampshire" to the name of the trust fund to which the security belongs.

We further recommend that the Trustees consider the advisability of obtaining renewal notes from the City of Franklin for notes held as part of trust funds.

Consideration should also be given to the cancellation of blank endorsements for transfer or sale which appear on the back of certain certificates. These securities should be turned in and new certificates requested. Provision should be made so that, at all times, no fund within the trust fund, would exceed the limits of protection of the Federal Deposit Insurance.

We failed to find any record of an apparent contingent asset in the form of a savings account in the amount of \$294.68, in the Franklin Savings Bank and in the name of the City of Franklin, New Hampshire. This contingent asset was created in 1936 and we recommend that the true nature of the fund be looked into and properly recorded or noted on the records of the City.

From the above comments we have tried to bring to your attention what we consider the more important changes and criticisms which should be brought out in this report. We would also like to add that it is very seldom that one finds a city with as good a tax collection as you have.

We also wish to take this opportunity to express our appreciation for the splendid co-operation we received from all departments while making the audit.

We have prepared the following Exhibits and schedules, based upon our audit, which we believe in connection with the comments herein made, fairly and accurately presents the financial condition of the City of Franklin, New Hampshire, as of December 15, 1941, and the result of the operation and management for the year.

Respectfully submitted,

BLISS & LAWLOR,

Public Accountants.

H. STANWOOD BROOKS,

Certified Public Accountant

State of Vermont.

HIGHWAY DEPARTMENT

REPORT OF HIGHWAY COMMISSIONER

An early Spring and good weather helped the Department get an early start on cleaning and patching the city streets.

In March a W.P.A. Project was started in order to lay 400 ft. of 3 ft. concrete pipe from the Winnepesaukee River across East Bow Street and connecting with a culvert just south of Wyatt Court. The old drain had caused considerable trouble and property damage in years past. Also a bad intersection at the corner of Central and Sanborn Streets has been widened and a ledge removed and a new sidewalk and curb have been built.

Working in conjunction with the State Highway Department a section of North Main Street south of the Bristol railroad crossing has been lowered and a bank curve built which should eliminate future accidents.

The entrance of West Bow Street has been widened, a new walk built joining the new Elks' Home and Fenalson Square changed to one way traffic.

Nine hundred and sixty feet of new sanitary sewer on Dearborn Street and 200 feet on Leach Ave. have been laid.

Beaton Street has been gravelled for a distance of 300 feet.

Most all streets with previous black top surfaces were treated with oil and asphalt during the summer.

Under the State T. R. A. system $3\frac{1}{2}$ miles of road was graded and treated with calcium chloride, also 1800 feet on the Ward Hill Road has been gravelled.

The Department purchased 2 new Dodge trucks, 3 snow plows and a sander during the year.

I want to thank the Mayor and Council and employees for their cooperation during the year.

MICHAEL E. BURKE,
Highway Commissioner.

M. pump, 1200 feet of 2½ inch hose, 1 foam and 1 soda and acid extinguisher, 1 24-foot extension ladder, 1 12-foot roof ladder, 6 lengths of 4 inch suction hose, 100 gallon Booster tank, 150 feet ¾ inch Booster hose, 1 10-foot Pike pole, 2 1½ inch tip nozzles, 1 fire axe, 1 1 gallon oil can, small kit of tools, 10 uniforms.

Central Fire Station

1 Type 75 American LaFrance 750-gallon per minute pumper, 40 gallon Booster tank, 200 feet of 1 inch Booster hose, 1000 feet of 2½ inch hose, 2 smoke masks, 1 roof ladder, 1 extension ladder, 2 2½ gallon extinguishers soda and acid, 1 Carpenter hand light, 1 1½ inch fog nozzle, 2 2½ inch nozzles, 1 Bresnan revolving nozzle, 1 8-foot Pike pole, 6 lengths of 4½ inch hard suction hose, 1 length of 4½ inch soft suction hose, 10 uniforms, 1 salvage cover, 1 officer's hand light.

Mack ladder truck with 750 gallon per minute pump, 500 feet 2½ inch hose, 281 feet of ladders, 1 deluge set, 1 cellar syphon, 1 life net, 3 hose covers, 6 salvage covers, 8 squeegees, 6 brooms, 6 mops, 2 mop wringers, 3 pails, 1 complete lighting plant consisting of 1 5000 watt generator, 1 1500, 1 1000 watt flood lights, 2 250 watt portable lights, 2 2½ gallon soda and acid extinguishers, 2 lengths 5 inch hard suction hose, 17 uniforms, 1 officer's hand light.

Engine 2, Reo, equipped with a 250 gallon per minute rotary pump, 80 gallon Booster tank, 150 feet of $\frac{3}{4}$ inch Booster hose, 800 feet of $1\frac{1}{2}$ inch fire hose, 2 24-foot extension ladders, 4 lengths of 3 inch hard suction hose, 6 soda and acid extinguishers, 1 carbon dioxide extinguisher, 1 250 watt portable light, 1 officer's hand light, 4 uniforms, 3 pails, 1 bar, 1 Axe. This truck is equipped with trailer hitch for pump can trailer used for brush fires.

Lincoln special service truck, 400 feet of $1\frac{1}{2}$ inch fire hose, 1 pure air positive pressure blower, 2 pure air masks, 300 feet of 1 inch air hose, these masks are equipped with telephones, 1 H and H inhalator, 1 first aid kit, 2 drawers of first aid supplies, 1 1500 watt generator, 1 stationary 500 watt flood light, 1 250 portable light, 1 officer's hand light, 2 salvage covers, 500 feet of $\frac{1}{2}$ inch rope, 50 feet of $\frac{3}{4}$ inch rope, 1 army type stretcher, 1 carbon dioxide extinguisher, 7 uniforms. This truck is equipped with trailer attachment for life boat and trailer.

There is on hand at the Central Station 3200 feet of $2\frac{1}{2}$ inch hose, 20 pump cans, 5 $2\frac{1}{2}$ gallon soda and acid, and 2 foam extinguishers, 22 long handle shovels.

Recommendations

This has been another year of progress in the Fire Department. The Chevrolet hose truck which was falling apart has been replaced by a modern pumper of 500 gallons capacity, which was a much needed improvement. This made it necessary to remodel the old Ward One Station built in 1869. The old wooden floor was removed and a small basement filled to grade and a cement floor put in, also overhead doors were installed, the building insulated inside, a new toilet sink, and storm windows put in. There is some work yet to be done inside and the building should be painted outside. This will make a modern station which will not need any repairs for a long time, we believe.

The Central Station roof is in need of much repair, and the building needs painting outside badly. Whether this can be financed out of our present appropriation is a question.

The Board of Engineers wish to take this opportunity to thank all those who have helped to make this a successful year. While we have had a large number of fires the actual loss has been small, and with the continued cooperation of our citizens the loss by fire can be kept in the low brackets. Now that the country is at war we should all be on guard against fires.

Apparatus Report

Engine One—American LaFrance

Number of miles traveled	190
Number of feet 2 ½ inch hose laid	13600
Number of gallons of chemicals used	25
Number of still alarms answered	5
Number of bell alarms answered	34
Number of hours pumped at fires	22
Number of feet of ladders used	144
Number of gallons of gasoline used	148

Engine Two—Reo

Number of miles traveled	531
Number of gallons of gasoline used	186
Number of alarms answered (still)	188
Number of bell alarms answered	32
Number of hours pumped at fires	9

FRANKLIN PUBLIC LIBRARY

LIBRARIAN'S REPORT

To the Trustees of the Franklin Public Library:

In submitting my seventh annual report as librarian, I feel that another year of service to the community has been ended and look hopefully toward increased usefulness through these troubled times.

Great improvement in the appearance and spirit of the Library has resulted from the redecoration of the main floor. The adult and juvenile reading rooms, the charging room, and the front hallway have been cleaned and painted. The floors in the two reading rooms have been covered with heavy linoleum, which results in greater cleanliness and deadened sound. New venetian blinds and curtains at the windows make the rooms more inviting and give a diffused and better-controlled lighting. The lighting in the children's room has been further improved by the substitution of fluorescent lights for the old drop and table fixtures. New bookcases have increased the capacity of this room. Great credit is due the City Council for making this possible by contributing the labor of city employees as well as the appropriation of five hundred dollars for the cost of materials. The Sewing Project made the curtains for the reading rooms, thereby saving the Library much added expense. Throughout the confusion entailed by the redecoration, the Library maintained unbroken service.

The unity of interest and purpose between the Library and the city schools has been maintained and extended this year. Much of this has been due to the cooperation of the teachers in guiding their students to the facilities of the Library. The number of supplementary reading books loaned to the Daniell Junior High School has been increased, and a reading nook established in the High School. Student librarians from the schools have visited the Library for instruction in the care and circulation of these books, and the librarian has gone to the schools to give additional help. Several classes from the schools have attended the Library for instruction in its use, and other classes have borrowed smaller collections of books for classroom reading. For the pre-school and primary age groups the Library Story Hour each Saturday morning continues to be a satisfying attraction.

Cooperation by the Library has not been restricted to the schools. Increasingly individuals and groups have come to the library for advice on book purchasing and for reading lists. For the League of Women Voters a special display of books on Pan American Relations has been as much enjoyed by the general borrowers as by League members. Through Book Week a collection of books suitable for Christmas buying was displayed in the Charging Room. These were loaned by Mr. Lynde B. Stone and attracted much attention. Every effort has been made by the Library staff to cope with the increased amount of reference work resulting from the Defense Program and public interest in world affairs, not only by purchasing additional material but by making more available the resources at hand. As the Defense Program becomes even more organized locally, the Library will be increasingly able to serve by obtaining and distributing information to groups and interested individuals.

Of the \$1,769.74 spent for the purchase of books, \$926.16 has been paid by the public directly, and \$312.13 has been drawn from trust funds designated for book purchases. In reality, then, the City has actually paid from appropriated funds only \$531.45, or less than eight cents per capita population, for books during the year.

From the trust funds the following purchases were made: **Reminiscences of New Hampton** by Frank H. Kelley, **History of Hancock, New Hampshire** by William Willis Hayward, **History of New Ipswich, New Hampshire** by Frederic Kidder and Augustus Gould, and the **Building America** series, from the Jeremiah Clark Fund; **The Essay Index and Art in Everyday Life** from the Frank and Ella Chapman Fund; subscriptions to those most useful of library reference tools, **The United States Catalog** and **The Cumulative Book Index**, from the Contributors' Fund; **The How and Why Library**, for children, from the Helen Pike Parsons Fund; **The Standard Catalog for Public Libraries**, **The Children's Catalog**, and three sets of technical books, **Modern Shop Practice**, **Applied Electricity**, and **Building and Contracting**, from the Anna G. Blodgett Fund; and from the Franklin Library Association Trust Fund, the subscription to the Junior Literary Guild selections for the four age groupings, and a number of career books for junior and senior high school readers.

In keeping with the trend of library circulation throughout the nation, the number of books borrowed has decreased markedly. Volunteer defense work as well as increased employment has made it impossible for people to read as much as they have done in less busy times. It is interesting to note that

the percentage of adult fiction borrowed, 61%, is 3% less than last year, while non-fiction, 21% is correspondingly higher.

Special acknowledgment is due to those libraries outside the city that have made their books available to Franklin borrowers. The collections of the State Library, the Boston Public Library, the Dartmouth College Library, the Laconia Public Library, and the Bangor, Maine Public Library have been drawn on as a matter of routine to satisfy the needs of our readers. Through special arrangement with the Manchester City Library a collection of one thousand Polish books was made available to our Polish-American readers. To all of these institutions the Library offers thanks.

Professionally the Library staff has been active. The Librarian attended the annual conference of the American Library Association in Boston. In her capacity first as Second Vice President and then as First Vice President of the New Hampshire Library Association, she has been active in promoting library work throughout the state, visiting libraries and directing District Meetings for local professional improvement. Mrs. Louise Tandy has served well on the Children's Committee of the New Hampshire Library Association. Through the generosity of Mr. Walter F. Duffy, Chairman of the Trustees, Miss Muriel Davis, part-time assistant, was able to attend the Library Summer Institute at the University of New Hampshire. The Library has continued to cooperate with the State Library in building the state-wide union catalogs of non-fiction and music. Through the New Hampshire Library Association, it has joined in the project of indexing the Granite Monthly and exchanging duplicate copies to complete the files. The meeting of District 8 of the New Hampshire Library Association was held at the Franklin Public Library.

The Library has been honored with many significant gifts during the year. In memory of their ancestors, Jessie E. Stevens, Mabelle E. Stevens, Emma F. Longfellow, and Edith E. Stevens gave a copy of the Bible published in Franklin by Peabody and Daniell in 1844. The Order of Elks gave a fine International Atlas with 1940 Census Statistics, which is already proving its worth. Many individuals have donated back copies of magazines and books, all of which have found a new phase of usefulness in the Library. Not the least of gifts has been the time which many have given to telling stories for the Saturday morning Story Hour. To all of these friends and donors the Librarian extends her gratitude.

The future plans of the Library call for considerable renovation in the basement to make the Library of even greater service to the public. The Librarian's office should be moved

upstairs into the New Hampshire room, and a new and larger reading room built downstairs to take care of the increasingly valuable collection of reference and New Hampshire material. A book elevator should be installed and a staff workroom and restroom built.

Throughout the year the Library staff has tried to offer at all times friendly and courteous service to its users, knowing that the test of a library's usefulness lies in the satisfaction of the people who use it. They are always glad to welcome regular patrons and urge those who have not used the Library before to come in and get acquainted.

Respectfully submitted,

DOROTHY R. STARIE, Librarian.

Circulation Record

	1940	1941
Number of volumes of non-fiction loaned, adult	8,673	7,527
Number of volumes of non-fiction loaned, juvenile	2,256	2,043

Number of volumes of fiction loaned, juvenile	9,597	8,574
Number of filed clippings and pamphlets loaned	276	396
Number of magazines loaned	2,956	2,306
Total circulation	64,815	54,283

TRUSTEES' REPORT

December 31, 1941

To the Honorable Mayor and Members of the City Council,
Franklin, New Hampshire.

Dear Sirs:

As chairman of the Board of Library Trustees, there is submitted herewith the reports of the Librarian and Treasurer for the past year. These reports are plain and quite complete in details.

The Librarian's report is particularly explicit in the character of the work the Library is doing in our midst. The work the Library is doing for our schools is especially worthy of notice, in view of the fact that in other towns and cities

of the state there are libraries which are devoted to school work only. In this report there is disclosed the increasing relations between the library and citizens of our city. The assistance from other cities and the state and other states is noted. The small amount of city funds used directly for purchasing new reading materials is shown. The contributions from those who have passed from among us and others who are still with us are given notice that you may know how fortunate our city is to have such funds to help carry on the work of the Library. Helpful gifts of this kind have been a great boon in the demands that fall upon a library such as ours.

Your special appropriation of last year, which was some smaller than the Trustees felt could be well used for up-building the usefulness of the library, has been, we believe, advisedly spent and we trust will meet with your approval. The amount spent has been larger than the appropriation granted, and library funds have had to be used for the minimum of work that seemed necessary to do, if anything was to be done.

Mr. Colcord and the others who assisted him to carry on the work, were very necessary to permit the work to be done properly. All this work was exceedingly well done and is greatly admired and appreciated. The Trustees are grateful for this kind of assistance. About \$400.00 more than the appropriation will have been spent when a few more necessary additions are included.

If the incoming Council would see fit to make the appropriation for 1942 \$1,000.00 more in addition to what had been the previous appropriation of \$4,800.00 the Trustees would be glad to continue as far as possible the renovation started in 1941.

Please note that in the funds on hand at the end of the year, there is included \$1,000.00 given to the library by the late Ellen F. Draper, which the Trustees hope to be able to use intact for establishing a reading room in the basement of the building, to be known as the Draper Room, which was one of the items called for in the request made early this year for additional appropriation.

The funds on hand at the end of the year include what will be needed to keep up with expenses for the coming months before the 1942 appropriation becomes available.

Respectfully submitted,

WALTER F. DUFFY, Chairman
Board of Trustees.

SEWING PROJECT

The following garments were made on the project from December 15, 1940 to December 15, 1941:

1067	men's garments
511	women's garments
1020	boys' garments
1406	girls' garments
566	infants' garments
236	sheets
154	pillow cases
47	curtains
334	towels
322	holders

5663 total garments made

The cost of the project was \$2,262.08, \$1,409.74 of which was reimbursed by Merrimack County. This would make an average cost of \$.39 per article made. Ten women were employed.

WOOD ACCOUNT

The amount expended under the wood account was \$454.90. This included yarding, sawing, hauling, delivery and storage. Reimbursement of \$424.50 was received from Merrimack County for wood delivered to county cases.

We now have on hand about 250 cords of slab wood and 65 cords of hard wood.

SUPERINTENDENT'S REPORT

Defense Training

Defense is the leading topic of the day for discussion. What are the schools doing as their part in defense activities? First of all, the school department is contributing its building and equipment for training men for industrial work in machine shops on needed defense material.

The Federal Government pays for all materials used in the shop, also for a teacher, clerk, and janitor, and for heat, light and power.

There are two courses offered: One, holding sessions five nights a week, from 4 o'clock P.M. to midnight — a pre-employment course continuing for ten weeks; the other in session 'Fridays nights only, from 6 o'clock P.M. to midnight. The latter course is intended more especially for those who at some

time have had machine shop training, but who are now engaged in other employment. It is a sort of "brush up" course.

Both these courses have been patronized to the limit of our accommodations and equipment.

The following data gives the number of enrollees taking the Defense Training Courses:

Total number of enrollees on Pre-employment Course since July, 1940	116
Total number of enrollees on Supplementary Course since July, 1940	74
Total number on Pre-employment as of December 31, 1941	15
Total number on Supplementary as of December 31, 1941	19

The Schools and Defense

Many of the High School pupils have enrolled for help in some branch of the local defense program.

The schools themselves are organized, with dependable leaders, to protect themselves against emergencies of modern warfare.

Every opportunity is taken advantage of in the classroom to impress upon the pupils the favorable contrasts in every way between the axis countries and the United States. Valuable lessons are being learned as to the effect of war conditions upon community life and individual life as well as that of national life.

The schools are cooperating in every way possible and happy to do so, with local defense committees.

New Teachers

The year beginning in September, saw many new faces in our school rooms.

A new headmaster, Mr. Howard Mason, succeeded Gaius H. Barrett who had been headmaster for eight years. Rodney Griffin II and Earl Harris had been here seven years. Mr. Griffin resigned to take a state position, and Mr. Harris to accept a position in Keene Junior High School. Mr. George Rogers succeeds Mr. Griffin and Joseph King succeeds Mr. Harris.

Miss Nan Wells, who had served us for six years, resigned to be married and is succeeded by Miss Edna Smith. Miss Katharine Fairbanks, deceased, is succeeded by Miss Ruth Bailey. Miss Alfreda Kyrka was elected to the domestic arts position made vacant by the resignation of Miss Mary Devereux to be married.

In the junior high, Miss Marion Andrews and Harriet Harmon resigned to be married, and their positions were filled in September by the election of Miss Eugenia Szalajeska and Miss Wilma Howe. Mr. Ernest Higgins was elected to fill the vacancy caused by Miss Florina Potvin. Miss Madeline Halpin was elected as a special teacher for the junior high, but she also teaches a typewriting class in the high school. Miss Alice Jeffords, who had been assistant principal for 14 years, resigned to accept the principalship of a new school in Portsmouth, N. H. Miss Jeffords' resignation was much regretted by school officials, pupils and parents. Her work in the junior high school has been of outstanding excellence and her part in the development of the junior high school in the past 14 years cannot be over estimated. She has the best wishes of all of us for success in her new position.

Thus, eleven new teachers, one fourth of the total number of teachers, began their work in September 1941.

The new headmaster of the high school is to be congratulated for so successfully organizing his school along business and professional lines. The high school is a really working organization with a good corps of teachers. At the present writing, it appears that the war will take at least three of our men teachers very soon, necessitating securing three more new teachers.

Athletic Fields

In our last report we stated that we hoped the new athletic field would be developed soon as there was great need of it.

It is with much pleasure that we can report the field already laid out and rough graded, and will be ready for use in the spring. Also, the field on the intervale land has been rough graded and will be ready for a playground for the junior high school by next spring. The completion of these athletic fields will mean much to both schools in the development of their extra curricula activities.

A full account of the completed fields will be given in the 1942 city report.

Shrubbery

A contribution of \$90.00 was made by the Franklin Garden Club for the purchase of shrubbery for beautifying the new high school grounds. The school board appropriated \$117.66 for this purpose.

A good beginning was made and additional shrubbery should be secured this year to complete the project. The city owes its thanks to Miss Helen Russell for contributing her professional

services in supervising the planting of the above mentioned shrubbery. We consider ourselves very fortunate in having so competent a supervisor.

Hancock School Repairs

The old high school and the Hancock school have been heated from the city heating plant. With the razing of the old high school, it seemed economy no longer to force the steam so long a distance for the one building left. An appropriation of \$1,800 was made for installing in the Hancock building an independent heating plant. This has been done and the new oil heater is very satisfactory.

New Equipment

The fourth grade room in the Hancock building and the fifth grade room in the Nesmith have been equipped with new modern desks and chairs. It is planned to equip the first grade in the Hancock and the fourth grade in the Nesmith in like manner this year. All the school rooms will then be furnished with modern furniture.

Our Defense Training School has been allotted for new machinery for the machine shop. We have received only one of the machines thus far.

Finger Printing

Through the State Police Department it is proposed (with parents' consent) to finger-print every school child in the state. The preliminary arrangements have already been made in the Franklin Schools and all is in readiness for the state officers. The parent consent is nearly 100 per cent.

Finances

The report for the fiscal year ending Dec. 31, 1941 would indicate that the schools have cost \$96,204.89 which would seem to be a large increase over previous years. From this amount, however, should be deducted \$5,813.22 advanced by the district for supplies for the Defense Training School, but refunded by the state.

Annual Meeting

The annual school district meeting was held Saturday, Dec. 27th. Mrs. Helen Sullivan was elected a member of the School Board for the ensuing three years, receiving 107 votes of the 108 cast, one being a blank.

Mrs. Sullivan succeeds Mrs. Laura Daniels who served the district faithfully and efficiently for nine years and was not a candidate for re-election.

Conclusion

I hope that the reports of the School Nurse, Miss Moynihan, Headmaster Mason and Principal Rowell will be read by all interested in school progress.

The cooperation of school board, teachers, pupils and citizens this past year has been delightful and made the tasks seem lighter. I appreciate it fully.

Respectfully submitted,

FRED S. LIBBEY,
Supt. of Schools.

FRANKLIN HIGH SCHOOL HEADMASTER'S REPORT

January 1, 1942.

In this, my first public opportunity to do so, I wish to express my sincere thanks for the cooperation and consideration I have received from parents, citizens, school board, superintendent, teachers, and pupils. Franklin should be justly proud of its fine attitude and spirit in regard to school matters. Combined with this excellent attitude we have one of the finest school plants in New Hampshire and will have one of the best athletic fields.

One often forgets in the hurry of every day affairs to recognize work well done, so I hereby extend my heartfelt thanks for the splendid work of the teachers of Franklin High School. They have been loyal, willing, hardworking, sincere, and earnest in their efforts to do the best they can for every boy and girl in their charge. Many of these teachers toil into the long hours of the night on tasks the public seldom know about.

To date this year there have been 320 pupils enrolled in high school as follows: post graduate 3, seniors 94, juniors 119, sophomores 104. This is 8 less than the enrollment last year but as three fewer pupils have left school this year than did last year, our actual present enrollment is only 5 less than last year. This is a much better record than can be shown in most schools in the state this year, or for that matter, the nation. It is always difficult in times of rising wages and a great demand for workers to show pupils the wisdom and value of completing their high school courses. It is easy to state that those who leave school are often the less capable and less desirable pupils but this does not solve the problem. Every pupil in a

democracy is entitled to as much education as he is capable of undertaking. In this, our Country's time of greatest need, we must have a well-trained and well-educated citizenry. It is the duty of every boy and girl as a citizen in our great democracy to prepare himself to the fullest so that he can best serve his country.

With the rising demands of the War Emergency the school is doing everything possible to assist where it can. Campaigns are being inaugurated to save in the use of paper and other school supplies. Pupils are available at many times to assist in matters of National and Civilian Defense. The school is organized to take care of itself in case of any emergency or to send help to stricken areas.

There have been few changes this year. We have attempted to place the school on a sound and modern administrative basis so that the pupils and teachers might work together in the most efficient manner. In connection with this, I would like to make an appeal to all parents to assist us in having the pupils avoid being tardy. Tardiness is not tolerated in the business world and therefore cannot be tolerated in the public schools which are the training ground for future adults who will occupy positions in our society as workmen and executives. In the same way, more attention should be paid to unjustified absence. If a child is sick he should stay at home. Otherwise than this, there are very few reasons to keep a pupil from his lessons. When a pupil is absent the flow of work in the classroom is interrupted and the continuity of the work is lost. A pupil's mark is bound to be hurt by absence.

Early this fall, a modern English examination was given to all pupils. The results were found to be very unsatisfactory. For this reason, the plan of work in English classes has been revised, new books have been placed in use, and three special extra classes have been organized to assist those who seemed to need the most help. We are not attempting to put in operation a course in college preparatory English, but we do feel that every pupil should be able to read, write, and speak in an intelligent manner.

One special part of our program that might need mentioning is that which is devoted to work other than the regular classes. We have an assembly once a week at which we have plays, speakers, exhibits, patriotic exercises, and other worthwhile programs. Besides the regular activities of the school such as band, glee club, boys' and girls' basketball, football, track, golf, tennis, bowling, girls' field hockey, softball, baseball, swing band, and swing club, we have organized this year the following clubs: newspaper, electrical, knitting, girls' reserve,

camera, sewing, Hi-Y, biology, dramatics, and boys' cooking. These activities are all optional. They are very useful because they serve to bring out talent and hidden interests and desires that often cannot be unearthed in the regular classes.

We all welcome the use of the building by the public. However, I feel that more careful supervision of the building should be provided in the evening when often four or five different groups are using it. It is impossible to ask our regular janitors, who put in a long hard day, to do this. Possibly this could be effected by a part time janitor to serve only in the evenings.

In conclusion, I wish again to thank all those who have co-operated so wonderfully in helping me to carry out my work this year. We are anxious to make Franklin High School the best school possible. We welcome your criticisms and suggestions.

Respectfully submitted,

HOWARD F. MASON,
Headmaster.

DANIELL JUNIOR HIGH SCHOOL PRINCIPAL'S REPORT

Mr. Fred S. Libbey,
Superintendent of Schools,
Franklin, N. H.

Dear Mr. Libbey:

The seventeenth year of the junior high school organization finds our enrollment smaller than for several years. This is due to the change in residence of the Golden Rule Farm boys; the moving of many families to Portsmouth and other cities to engage in defense work; and to the non-return of several families who had been working on the Franklin Falls dam project. This decrease relieves all the overcrowding of the past few years and has made the seventh and eighth grade classes more practical in size.

During 1941 our activities have been much the same as stated in last year's report so far as curriculum and clubs are concerned.

Our outstanding curriculum change has been putting junior business training into the ninth year. Pupils taking this subject in grade nine and continuing with commercial subjects through the senior high school will have an excellent four year course in commerce.

Mr. Joseph Burleigh and members of his electrical club are installing our new public address system. This system provides

for an amplifier in each class room connected with the principal's office. In our school this system will be used for daily announcements, radio programs, music classes, class parties and radio broadcasting classes. This great addition to our school equipment has been made possible by gifts of money from the ninth grade classes. The class of 1936 began the fund with \$20.

Neither our recreation room nor our printing press have materialized — the former because the room has had to be used for a store room; the latter because we haven't found the type of press we can afford. We shall continue to hope and plan for these school aids in 1942.

We have made some very radical changes in our report cards believing these changes will give a fairer estimate of a pupil's individuality and ability. The three outstanding changes give opportunity to make a record under the following heads each marking period:

1. Suggestions for work or social improvement.
2. Improvement or outstanding strong points.
3. A definite statement, questions or request by parent or pupil for constructive purposes.

We urge parents to study these cards each time they come home and do all they can to encourage industry and right attitudes toward work in school and out.

In Miss Moynihan's report you will note that through her efforts every school child in Franklin will have had his hearing tested by the new audiometer.

Defective hearing, defective eyesight, underweight, and dental trouble handicap children tremendously. Any one of these difficulties may retard a pupil a year or more.

Therefore, whatever we can do to discover and remedy these troubles means a broader outlook for the handicapped child. We urge you to cooperate with the nurse, the child, and our school. (I refer you to the 1940 report and ask that you notice especially the work of the school nurse and the pupils' rest periods which we plan for every year.)

As this goes to press we believe that the junior high school pupils are to have an adequate playground on the flat near the Winnetoesaukee River. A great amount of filling and leveling has been done which makes the field most satisfactory for our needs. A large field means increased equipment to meet the needs of all pupils but it also means our pupils are to have increased physical exercise. A sound, well coordinated and healthy citizen is most valuable to our community.

By expressing a willingness to aid in a nation-wide testing program every pupil in junior high school was given the new Terman-McNemar Intelligence Test. These tests were given to

small quotas of selected groups in every state in the United States during the month of November. The results of these tests will help us put the pupils in the groups where they can work to the best advantage.

We are continuing to direct, encourage, mold, and build wholesome character in your boys and girls the best we know how and we wish to express our appreciation for your cooperation through this year.

In behalf of the faculty and myself, I express our gratitude to Supt. Libbey and the School Board for their helpful cooperation during the past year.

Respectfully submitted,

BESSIE C. ROWELL,
Principal.

SCHOOL NURSE'S REPORT

Franklin, N. H., December 29, 1941.

Mr. Fred S. Libbey,
Superintendent of Schools,
Franklin, New Hampshire.

Dear Mr. Libbey:

I herewith submit my report of the Franklin schools for the School year of January 1941, to January 1942:

Number of children examined, 1566.

A chest clinic was held in January and June with 68 attending. This clinic was sponsored by the New Hampshire Tuberculosis Association with Dr. Robert Kerr as the examining physician.

Classroom inspections were held for symptoms of communicable diseases and pediculosis (head lice.) It is my aim to have our schools free of pediculosis, but in order to do this, the cooperation of the home is very necessary. One cannot do this alone, teamwork on the part of all concerned is essential.

The children in the elementary schools were weighed four times and measured three times during the year.

285 children received one half pint of milk daily.

184 children received cod liver oil twice a day during the fall and winter months.

The names of 322 children were placed on the dental Honor Roll. A certificate signed by a dentist stating that all the necessary dental work has been completed, must be submitted before a child's name may be placed on this roll. We have placed in the lower halls of the elementary schools a Dental Honor Roll, and the school having the largest enrollment will receive the Dental Honor Banner.

A dental poster contest was held in June and prizes were awarded.

92 children received vision corrections.

Conferences were held with pupils, teachers, public health nurses, social workers, and parents.

A physical therapy center at the Junior High School is being held twice a month. Children with poor posture and orthopedic defects are given exercises and treatments by a registered physical therapy nurse. A doctor's order is secured before any treatment is given by the nurse. Eleven orthopedic cases were cared for during the year. Two of these cases received treatment at the orthopedic department of the Elliot Hospital in Manchester, New Hampshire.

Arrangements were made with the State Board of Health in Concord, whereby Mrs. Carrie Price, R. N., registered physical therapy technician, gave a talk on Posture.

A rest period was held at the Junior High School. According to this project, the pupils receive one half pint of milk daily and cod liver oil twice a day. In addition, these children go into a room at a given time where they find a bed ready for them. Each pupil is furnished with a bathrobe and blankets. These are kept separate in their own compartments. A chart and graph of the weight is kept for each pupil. Junior High School girls act as assistant nurses. These rest periods have proven very beneficial to the pupils, but due to unavailable room space, the number of those who can be given this treatment is limited.

The pupils from the third grade through the Senior High School are to have their hearing tested with the No. 4 type Audiometer. This machine was donated this fall by the American Legion 40 and 8 of Merrimack County to the State Board of Education in Concord, New Hampshire. The purpose of this machine is to detect those who have defective hearing. We hope to have classes in lip reading deficiencies.

44 tonsil cases were corrected.

Total number of school visits, 1,418.

Total number of home visits, 614.

I wish to express my appreciation to the Directors of the Tobie Trust Fund, Franklin Rotary Club, the doctors and dentists of Franklin, Mr. Libbey, members of the Franklin School Board, teachers, parents, and pupils for the assistance they have given me during this school year.

Respectfully submitted,

MARION MOYNIHAN, R. N.,
School Nurse.

SCHOLARSHIP FUNDS

Sanger Scholarship

Resolved by the Board of Education of Franklin:

Whereas, Warren F. Daniell has by his written communication addressed to the Board of Education, expressed his intention of establishing a free scholarship for graduates of the Franklin High School in Simmons College in honor of his mother, and to be known as the "Sanger Scholarship," and agreeing to pay annually a sum sufficient to pay the costs of tuition for one student for four years in any of the courses described in the catalogue of the College, and

Whereas, a student to be awarded this scholarship must comply with the following regulations: First, she must have completed four years' satisfactory work at the Franklin High School; second, her parents must reside in Franklin; third, the student's parents must be unable without undue deprivation to pay the tuition themselves.

Be it Resolved, That the Board of Education of the City of Franklin fully appreciate the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young women of said city, thereby creating an additional incentive for higher educational advantages; and

Be it further Resolved, That said Board of Education willingly accepts said trust; and

Be it further Resolved, That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Headmaster of the High School of said city, and

Be it further Resolved, That this resolution shall be printed annually in the school report of said Board. .

Franklin Student Aid Fund

To the Mayor and Members of the City Council,
Franklin, N. H.:

In June, 1921, I placed with Dartmouth College at Hanover, N. H., a fund of \$2,500.00—the income from which I wished to be used to assist under certain conditions students at that institution who were residents of this city.

It was found incompatible with the methods of disposing of the funds at Dartmouth College, to handle this fund under the

conditions which I wished to impose—and for that reason I have transferred this sum from Dartmouth College to the City of Franklin.

I am attaching herewith the securities representing the fund together with a statement of the methods I wish followed in disposing of the income from the fund.

Respectfully yours,

WALTER F. DUFFY.

Franklin Student Aid Fund

Established by Walter F. Duffy, June, 1921.

A sum of \$2,500.00 is entrusted to the City of Franklin, N. H., the income from which is to be used to assist worthy boys and girls, residents of this city, to secure a collegiate education or its equivalent.

The recipients of the income from this fund are to be selected by a board of three consisting of the Chairman of the Board of Education, Superintendent of Schools and Principal of the High School of the City of Franklin, N. H.

The income from this fund is to be disposed of under the following fixed conditions:—

I. Scholarship

A student must attain such satisfactory standing in studies as to make it apparent to the authorities of the institution of learning where he attends, that it is advisable that the student pursue his studies and that he is on this account worthy of financial aid.

II. Financial Needs

It is to be required that the students who receive benefit from this fund shall be obliged, through lack of family financial resources, to earn at least a substantial part of the money necessary to meet the expenses of their attendance upon their studies.

III. General Restrictions

It is to be understood that in allotting the proceeds of the fund, preference is to be given to students at Dartmouth College, Hanover, N. H., who are residents of the City of Franklin, N. H. If no such students apply for the benefits of this fund, then the income can be used to assist any boys or

girls who are residents of the City of Franklin, N. H., and who are pursuing a course of studies in any institution of learning giving a collegiate education or its equivalent, provided that the first two conditions covering the disposition of the benefits of this fund are fulfilled.

It is also to be understood that the income from this fund may be divided between two or more students, and that any students who receive financial aid from the institutions of learning where they attend are not thereby prevented from receiving aid from this fund.

If no students fulfilling the above requirements apply for the benefit of this fund the proceeds may be used as they accrue each year as seems best to the three persons mentioned above for the general educational good of the citizens of Franklin, N. H.

Daniell Scholarship

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship."

Resolved by the City Council of the City of Franklin, as follows:

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April, 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniell Scholarship," and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the cost of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin, and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High School, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute Scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it Resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and

Be it further Resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and, ..

Be it further Resolved, That a Permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and

Be it further Resolved, That this resolution shall annually be printed in the reports of said city.

Approved,
Passed June 1, 1914.

W. W. EDWARDS, Mayor.

RESOLUTIONS

Resolution No. 1

In the year of our Lord one thousand nine hundred and forty-one.

A Resolution relating to the city notes in possession of the Trustees of Trust Funds.

Resolved by the City Council of the City of Franklin as follows:

That the City Treasurer be and is hereby authorized to draw his draft in the amount of thirty-seven thousand, six hundred and thirty-eight dollars (\$37,638.00) to pay notes of the City of Franklin, N. H. now held by the Trustees of Trust Funds of the City of Franklin, N. H.

Approved: HENRY J. PROULX, Mayor.

Adopted: January 6, 1941.

A true copy attest:

HARRY F. DAVIS, City Clerk.

Resolution No. 2

In the year of our Lord one thousand nine hundred and forty-one.

A Resolution relating to the weekly payrolls.

Resolved by the City Council of the City of Franklin as follows:

That the Treasurer be and hereby is authorized to draw his draft each week for the payment of the weekly payrolls of the highway, sewer and other departments where weekly payment is required.

Approved: HENRY J. PROULX, Mayor.

Adopted: January 6, 1941.

A true copy attest:

HARRY F. DAVIS, City Clerk.

Resolution No. 3

In the year of our Lord one thousand nine hundred and forty-one.

A Resolution relating to hiring money.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer are authorized to hire money to pay the current expenses of the several departments and any outstanding notes, bonds or evidences of debt of the City becoming due and to give promissory notes of the City therefor.

Approved: HENRY J. PROULX, Mayor.

Adopted: January 6, 1941.

A true copy attest:

HARRY F. DAVIS, City Clerk.

Resolution No. 4

In the year of our Lord one thousand nine hundred and forty-one.

A Resolution relating to borrowing money in anticipation of taxes.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer are authorized pursuant to the Public Laws, c. 42, s. 75, to incur debts for temporary loans in anticipation of the taxes of the current municipal year, which loans are hereby expressly made payable from such taxes, and to issue notes of the City therefor.

Approved: HENRY J. PROULX, Mayor.

Adopted: January 6, 1941.

A true copy attest:

HARRY F. DAVIS, City Clerk.

Resolution No. 5

In the year of our Lord one thousand nine hundred and forty-one.

A Resolution relating to the appointment of the Standing Committees of the Council.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be authorized to appoint the following Standing Committees of the Council, each committee to consist of one member from each ward, viz:

Highways	Street Lighting
Sewers	Cemeteries
Fire	Claims
Police	Health and Welfare
Schools	Finance, to consist of the
Public Lands and Bldg.	Mayor and two members
Ordinances	of the Council.

Approved: HENRY J. PROULX, Mayor.

Adopted: January 6, 1941.

HARRY F. DAVIS, City Clerk.

ORDINANCES

Ordinance

An Ordinance relating to the designation of certain streets as One Way streets and the regulation of traffic thereon.

In the year of our Lord one thousand nine hundred and forty-one.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall drive a vehicle into any street which has been designated by the Highway Commissioner and Highway Committee in conjunction with the City Marshal and Police Committee, as a one way street except in obedience of the signs indicating in which direction traffic is permitted or when directed by a police or traffic officer.

Section 2. Penalty. Any person or persons violating the provisions of this Ordinance shall be subject to a fine not to exceed ten dollars for each offense.

This Ordinance shall take effect upon its passage.

Approved: HENRY J. PROULX, Mayor.

Passed: September 3, 1941.

A true copy attest:

HARRY F. DAVIS, City Clerk.

An ordinance providing for fire prevention and protection in connection with hazardous materials and processes.

In the year of our Lord one thousand nine hundred and forty-one.

Be it ordained by the City Council of the City of Franklin, as follows:

ARTICLE I.

Section 1. Authority to enter premises. The Chief of the Fire Department or any member of the fire department designated by him as an inspector may, at all reasonable hours, enter any building or premises for the purpose of making any inspection, which under the provision of this ordinance he or they deem necessary to be made.

Section 2. Inspection of premises. It shall be the duty of the Chief of the Fire Department to inspect or cause to be inspected by fire department officers or members, as often as may be necessary, but not less than twice a year in outlying districts and four times a year in the closely built portion of the city, all buildings, premises and public thoroughfares, except the interior of private dwellings, for the purpose of ascertaining and causing to be corrected any condition liable to cause fire, or any violation of the provisions or intent of any ordinance affecting the fire hazard.

Section 3. Whenever any such officer or member shall find in any building or upon any premises or other place, combustible or explosive matter or dangerous accumulation of rubbish or unnecessary accumulation of waste paper, boxes, shavings, or any highly flammable materials, and so situated as to endanger property, or shall find obstructions to or on fire escapes, stairs, passageways, doors or windows, liable to interfere with the operation of the fire department, or egress of occupants, in case of fire, he shall order the same to be removed or remedied.

Section 4. Such order shall forthwith be complied with by the owner or occupant of such premises or building, subject to appeal within twenty-four hours to the fire committee, who shall within ten days review such order and file their decision thereon, and unless the order is revoked or modified it shall remain in full force and be obeyed by such owner or occupant. Any owner or occupant failing to comply with such order within ten days after said appeal shall have been determined, or if no appeal is taken, then within ten days after the service of the said order, shall be liable to a penalty as herein after stated.

The service of any such order shall be made upon the occupant of the premises to whom it is directed by either delivering a true copy of same to such occupant or by delivering the same to and leaving it with any person in charge of the premises, or in case no such person is found upon the premises by affixing a copy thereof in a conspicuous place on the door to the said premises. Whenever it may be necessary to serve such an order upon the owner of the premises, such order may be served either by delivering to and leaving with the said person a true copy of the said order, or, if such owner is absent from the jurisdiction of the officer making the order, by mailing such copy, by registered mail with return receipt, to the owner's last known address.

ARTICLE II.

Section 1. Bonfires. No person shall burn or cause to be burned any trash, lumber, leaves, straw or other combustible material in any street, alley or vacant lot, without a permit from the Chief of the Fire Department, when such burning shall be approved by him and under such safeguards as he may direct.

Section 2. Hot ashes and other dangerous materials. Ashes, smoldering coals or embers, greasy or oily substances and other matter liable to spontaneous ignition shall not be deposited or allowed to remain within twenty feet of combustible materials or construction made up of combustible materials, except in metal or other non-combustible receptacles. Such receptacles shall be placed in non-combustible stands, unless resting on a non-combustible floor or on the ground outside the building, and shall be kept at least ten feet away from any combustible wall or partition.

Section 3. Penalties for Violation. A person who shall violate a provision of this ordinance or fail to comply therewith, or who shall violate or fail to comply with any order or regulation made thereunder or who shall build in violation of a detailed statement or plan submitted and approved thereunder, or of a permit issued thereunder, shall severally for each and every such violation and non-compliance, forfeit and pay a penalty not to exceed the sum of twenty dollars. The imposition of a penalty for a violation of this ordinance shall not excuse the violation, or permit it to continue; such violation shall be remedied within a reasonable time and each ten days that such violation is permitted to exist shall constitute a separate offense. The application of the above penalty shall not be held to prevent the enforced removal of prohibited conditions.

Section 4. Validity. If any section or part of section or paragraph of this Ordinance is declared invalid or unconstitutional it shall not be held to invalidate or impair the validity, force or effect of any other section or sections or parts of a section or paragraph of this Ordinance.

Section 5. Conflicting Ordinances repealed. All ordinances and parts of ordinances herewith are hereby repealed.

Section 6. Date of Effect. This ordinance shall take effect and be in force from and after its passage and legal publication. Approved: September 3, 1941.

HENRY J. PROULX, Mayor.

Passed September 3, 1941,

Harry F. Davis, City Clerk.

Mayors Pledge All-Out Aid

*(From a Proclamation Adopted by the U. S. Conference of
Mayors, January 14, 1942)*

We are at War. And the World is our fighting ground. . . .

Our job is to set our individual communities in order, that there may be no delay, no confusion, and no hindrance in carrying out the work clearly set forth by the President and the Congress of the United States.

This task we will make the first order of business in each of our cities.

We will likewise inform our people of the sacrifices which all of us must make in the coming days and weeks. These sacrifices are but nothing compared to the contributions being made daily by the military and naval branches of the Government. They are on duty 24 hours a day and we, as civilians, must cheerfully work overtime.

To the goal of an ultimate and glorious victory, we pledge our efforts, our time, and our lives. And when this objective shall have been reached, let there be no doubt we will make sure that an ultimate and enduring peace for all the peoples of the world is assured.
